

# Code not wrapping in PDF

Me

2024-04-11

## Table of contents

```
a = 2
b = 3

c =a *b # But the problem is that if I have either a long line of code or
        ↵ long line of comments then wrapping does not seem to work

c =a +b +a +b +a
        ↵ +b +a +b
```

```
importpandas aspd
importnumpy asnp
```
